Clerc-Milon 2017: Quality score vs average market price (£)

Despite no gesture to bring down Clerc-Milon's 2017 ex-négociant release price, the wine is available to consumers at the lower end of market level for other recent vintages, so whilst its quality is not up there with the last three vintages, it doesn't look too overblown.

“Lovely fragrance of small dark berries. Smooth, polished though not particularly deep or long. Fresh and singing from the glass in a lighter and delicious style.”

Wine Lister's Founding Members have attributed Clerc-Milon a confidence rating of 7/10, improving one point over the past year.

3-year Compound Annual Growth Rate

Across all vintages, Clerc-Milon has the third best 3-year CAGR of all Bordeaux wines.
