Ausone 2017: Quality score vs vs average market price (£)

Ausone 2017 is one of the wines of the vintage. The large decrease on the 2016 release price will put it into the market at a significant discount to the 2009, 2010, 2015, and 2016. In a consistent end to the campaign, 2014 and 2012 look attractive in comparison, the latter currently available at a c.30% discount with a very similar Quality score (965).

“The 2017 Ausone is without question one of the wines of the vintage. [...] marvellous depth and remarkable aromatic intensity from the very first taste.”

Ausone’s confidence rating amounts to 8/10, the same as per last year’s results in Wine Lister’s Founding Members’ survey.
