Léoville Barton 2017: Quality score average market price (£)

Léoville-Barton was popular with the critics in 2017, scoring half way between the 2014 and 2015. Similarly its release price puts it into the market between the current market value of those two vintages. Whilst this might work *en primeur*, the 2014 again looks appealing.

“Great colour, excellent body, and a supplement of generosity in the texture and aromatic complexity compared to Langoa, more marked than in other vintages. It will equal some First Growths.”

“One of the few truly exceptional Left Bank wines of the vintage, the 2017 Léoville-Barton is simply fabulous.”

“It has a perfumed and pure bouquet that demonstrates a little more cohesion and refinement than some of its Saint-Julien peers.”
