Pavie 2017: Quality score vs average market price (£)

The wine's change in style since 2014 is winning it new followers, but Pavie's punchy 2017 release price is only 6% below last year's release, leaving it well above market price for the higher-scoring 2015 and 2014 in its continuing repositioning bid to edge ever closer to the left bank first growths.
