Rauzan-Ségla 2017: Quality score vs average market price (£)

Rauzan-Ségla's price is a masterclass in *en primeur* pricing: it equates to a 10% discount on the future market price the 2017 could expect to reach using the average quality to price ratio of similar vintages. Given its popularity and the speed at which it sold during last year's campaign, this will fly.
