Smith Haut Lafitte 2017: Quality score vs average market price (£)

The 2017's release price puts it over 10% below the current market value for both the 2015 and 2016. Whilst it can't quite match the quality of the previous two vintages, its release price looks more reasonable than some. The market will decide whether it comes with the necessary "en primeur" discount to necessitate buying it now.

“Exceptionally refined and elegant in this vintage, thanks to impeccable viticulture. We will delight in following the Smith-Malartic battle in the coming years.”

Michel Bettane (B+D)

94-97
Antonio Galloni (Vinous)

“Easily one of the highlights of the vintage. Dense, unctuous and impeccably balanced, the 2017 exudes depth from start to finish.”
